Forum for Professionals
Quo Vadis Automation

Invitation
to a free-of-charge presentation event about the opportunities and capabilities of increasing digitalization in combination with practical solutions

June 20\textsuperscript{th} and 21\textsuperscript{st}, 2017
Fastems Systems GmbH, Issum

Top-level presenters from consulting and industry

Register now!
Experience the fascination of automation

The industry is currently struggling to deal with increasing cost pressure, shorter product lifecycles, shorter time-to-market, increasing complexity and growing customization. At the same time, digitalization is increasing; the transformation process comes with both opportunities and challenges.

Intelligent automation solutions support the transformation and increase competitiveness. If you would like to learn more about these current topics from vision to practical solutions, you should take advantage of this opportunity. Top-level presenters from consulting and industry provide you with first-hand insight regarding trends and implementation ideas.
The Forum for Professionals “Quo Vadis Automation” of Automationspraxis is a perfect mix of gripping presentations and exciting practical solutions. During the parallel exhibition, visitors get to meet renowned providers of automation technology:

**Fastems**
- Fastems is a leading manufacturer of solutions for automated material handling and processes around machine tools.

**ABB**
- ABB is a leading provider of industrial robots, modular production cells and service.

**AMTRU**
- Amtru Business AG specializes in the automation of fettling, deburring, grinding and polishing with robots.

**Fanuc**
- Fanuc uses globally superior automation technology, solutions and services in the area of factory automation.

**HALTER**
- HALTER CNC Automation offers a complete automation solution for series of 10 to 1,000 workpieces: the HALTER LoadAssistant.

**ISRA**
- ISRA VISION offers efficient machine vision solutions for the automation of highly complex tasks in the main applications such as robot and surface vision as well as quality inspection.

**OK-VISE**
- OK-VISE is specializing in the development and production of fixturing technology for processing centers and milling machines.

**POLUND**
- Polund offers quick and flexible clamping and fixturing solutions for different metal processing machines.

**SICK**
- From factory to logistics automation to process automation, SICK is one of the leading manufacturers of sensors.
Top-level presentation program

Tuesday, June 20th, 2017

- until 09:00 am Arrival of visitors / get-together
- 09:00 – 09:15 am Welcome by Heikki Hallila, Fastems and Armin Barnitzke, responsible editor of Automationspraxis
- 10:00 – 10:30 am Coffee and discussion break
- 10:30 – 11:00 am Tomas Hedenborg: Automation from Vision to Practical Application
- 11:00 – 11:15 am Podium discussion with Karl-Heinz Land and Tomas Hedenborg
  Moderation: Armin Barnitzke
- 11:15 – 01:00 pm Lunch break and time for personal discussions
- 01:00 – 01:30 pm Frank Rouweler: High Competitiveness Through Innovative Automation
- 01:30 – 02:00 pm Ulrich Peters: Highly Developed Automation – the Key to Increasing Competitiveness in a High Wage Environment?!
- 02:00 – 02:10 pm Coffee and discussion break
- 02:10 – 02:40 pm Stefan Kempf: Benefits of Automation for Mid-Sized Companies
- 02:40 – 03:00 pm Podium discussion with all presenters
  Moderation: Armin Barnitzke
- 03:00 – 05:00 pm Live presentation of different applications

Our presenters

Karl-Heinz Land
Founder, neuland GmbH & Co. KG

Tomas Hedenborg
Group CEO, Fastems Group

Frank Rouweler
Director of R&D, Wila B.V.
